THE DEAD ALIVE. A ROMANCE OF REAL LIFE

The subjoined narrative, published in a late number of Chamber's Journal, is stated to be translated from a foreign newspaper. It is necessary to remind the reader, that the island of Mauritius, appertaining at this day to the English, was originally colonized by the French and that the population yet consists in a great measure of persons of that nation, to whom by formal treaty between the powers concerned, their ancient laws and usages were preserved without any material alterations.

About ten or twenty months ago, the Sieur Clodomir, a rich merchant of the island, was found dead and frightfully disfigured in his own habitation. His body was found lying on the floor, with his head and face mutilated by means of a pistol, and all doubt as to the cause of the also of a paper in the hand writing of the deceased. This paper contained the following words: -"I am ruined! - a villain has robbed me of

CLODOMIR FRENOIS.' Great was the consternation caused by this tragic event, which was the more unexpected, as the loss alluded to in the note had never been made public. The deceased had been held in great esteem over the colony as a man of strict honor and probity, and was universally lamented. His attached widow, after endeavoring faithfully to fulfil his last wishes, found her grief too overpowering to permit her to mingle longer with the world, and took the resolution of consecrating her remaining days to the service of religion. Two months after the sad end of her husband she entered a convent, leaving to a nephew of her late husband, a physician, the charge of completing the distribution of the effects of Frenois among his creditors.

A minute examination of the papers of the defunct led to the discovery of the period at which the unfortunate merchant had been robthe amount of one pollar in advance, and all papers bed; and this period was found to correspond named John Moon, long in the employment of Frenois. Of this man, on whom suspicion not unnaturally fell, nothing could be learned on inquiry; but shortly after the division of the late merchant's property, Moon reappeared in the colony. When taken up and examined respecting the cause of his flight, he stated that he had been sent by his master to France to recover certain sums due to the merchant there, in which mission he had been unsuccessful; and are felt) the celebrated HAYS' LINIMENT. He demanded that the identity of the merchant be established, and the mystery of his existence be explained. He said that the court should not be biased by what might prove to be mere accidental likeness between a person living and one deceased, and that such an avowal as that of the prisoner, extracted in a moment of extraordinary terror, was not to be held of much weight. "Before being admitted here as accuser or witness," continued the advocate, addressing the resuscitated merchant, "give us proof of who and what you are, and disclose by what chance the tomb which so lately received your body, mangled by bullets, has given up its tenant, and restored you to the world in life and

This firm appeal of the advocate, who coninued stedfast to his duty under circumstances hat would have closed the lips of most men, called forth the following narrative from Clodomi Frenois: "My story may be soon told and it will suffice to establish my identity. When discovered the robbery committed by the accused he had fled from the island, and I speedly saw that all attempts to retake him, would prove fruitless. I saw ruin and disgrace before me, and came to the resolution of terminating my life before the evil day came. On the night on which this determination was formed, I was seated alone in my private chamber. I had written the letter which was found on my table and had loaded my pistol. This done, I prayed for forgiveness from my Maker for the act of despair I was about to commit. The end of the pistol was at my head, and my finger on the ock, when a knock at the outer door of the house startled me. I concealed the weaponcognized to be the sexton of the parish in which I lived.
